### SUMMARY

Software Engineer with 4 years of experience focused on frontend web development. Collaborated in multidisciplinary teams in agile environments, standing as a fast learner, flexible and focused professional. Looking forward to working on projects that embrace the web as a powerful platform, building performant and eye-catching web apps.

### WORK EXPERIENCE

#### Globant — Web UI Developer Ssr.

June 2021 - Present | Argentina

I worked as staff augmentation for the following clients, marked with ●

#### Autodesk — Design Systems Frontend Developer ●

July 2023 - February 2025

- Developing a React components library with TypeScript and Material UI (mui.com)
- Developed a Web Components library with Lit (lit.dev) and Shoelace (shoelace.style)
- Design Tokens implementation with CSS variables
- Documenting with Storybook
- Unit testing with Jest and React Testing Library

#### GoNoodle — Frontend Developer ●

February 2024 - March 2024

- Developed an educational content platform with Next.js 13, React 18, Tailwind CSS, React Query and custom hooks. Server Side Rendering (SSR)
- Blog with Static Site Generation (SSG) and Sanity CMS

#### LATAM Airlines — React Native Developer ●

July 2022 - February 2023

- React Native app for Android and IOS. Redux Observable and React Navigation
- Backend development with Node.js and Express
- Created the involuntary flight change section which allows passengers to choose a new flight from the app instead of contacting customer support
- Created and maintained components from the design system
- Implemented Firebase Analytics

#### Roundfeather — Frontend Developer ●

June 2021 - July 2022

- Developed a financial well-being web app with Vue.js and TypeScript
- Created reusable, responsive components and building a design system with Storybook
- Performed animations across the UI and styling with Tailwind CSS
- Wrote unit tests with Jest
- Performance optimization with caching techniques

#### Devlights — Fullstack Web Developer

November 2020 - June 2021 | Argentina

- Developed Node.js backend applications with Express and JWT authentication
- Designed and documented an API REST, with a MongoDB database
- Built frontend applications in React + Next.js + Redux, Sass, SVG and GSAP
- Performance and SEO optimization, web accessibility testing

### EDUCATION

#### Information Systems Engineering

Universidad Tecnológica Nacional, Facultad Regional Resistencia

2016 - In Progress

Relevant courses: Algorithms Design Techniques and Complexity, Artificial Intelligence, Statistics, Software Engineering, Software Quality Assurance and Agile Frameworks.
